STRENGTHENING YOUTH THROUGH EXPLORING™ BUSINESS
WHAT IS EXPLORING™

Exploring is all about helping young men and women in sixth grade through 20 years old to make a more informed decision about future careers and determine if a particular career is the right one for them. Typically, a young adult will either: 1) get involved, learn about a career, and decide to pursue it, OR 2) learn enough about the career to determine it’s not the right fit for them. It’s better to learn as a young adult that a career is not for you, than after spending lots of money on an education only to THEN discover you don’t like the career!

Exploring leaders volunteer their time to provide real-world career experiences for young adults. Exploring is not about lectures and slide shows—it’s about gaining practical experience in a career field. The result is a program of activities that helps youth pursue their special interests, grow, and develop.

TESTIMONIALS

The post was for students interested in accounting. I appreciated the one in a lifetime opportunity to give students a realistic understanding of what real work was like in the business profession.

EXPLORER PARENT

I would participate again because I found the program very helpful and I enjoyed meeting new people with the same goals and interest as myself.
